

YOUTH CLUBS HAMPSHIRE AND ISLE OF WIGHT
Working to enable young people to fulfil their true potential

BUSINESS DIRECTOR/ADVISOR (Volunteer)

Are you big on business?

Do you have what it takes to keep a business on the straight and narrow?

Can you translate your experience and expertise into supporting a charity?

Established in 1942, Youth Clubs Hampshire and Isle of Wight is the largest none faith-based, non-uniform young people's organisation in the wider-Hampshire area. We believe young people deserve access to high quality youth work services that will help enable them to achieve their true potential and we provide a wide range of different services to try and ensure this happens.

We are looking for someone with significant Business experience and expertise to support our Board of Directors either as a Director or as an Advisor to the Board.

The commitment we are looking for is: we would ask you to prepare for and to attend Board Meetings (approximately 2 hours 4 times per year including our Annual General Meeting). There may also be occasions when the Chief Executive will require some additional support from you and you may also be asked to attend Finance Group meetings if appropriate.

You will have responsibility to advise the organisation about business matters. As the world of the voluntary sector changes we will increasingly be required to take a business approach to some or all of the work we will be doing. You will advise the organisation about proper business procedures and if YCHIOW decides to set up a social enterprises, trading arm or similar in the future you will be responsible for supporting this process and monitoring their continued success.

If you think you would be interested in supporting us or you would like to find out more about us please do get in touch for an informal chat. You can also visit our website www.ychiow.org.uk to find out more information about our work.

How to contact us:

- Telephone: 01962 852307
- Email Ally Lee-Dudley, Chief Executive: ce.ychiow@gmail.com
